

PREDICTABILITY FOR YOU. OPTIONS FOR YOUR PATIENTS.

Emprint™ Ablation System
POWERED BY THERMOSPHERE™ TECHNOLOGY

The Emprint™ ablation system powered by Thermosphere™ technology delivers that predictability. With **three kinds of spatial energy control – thermal, field, and wavelength** – it produces precise **spherical** ablation zones. It's ablation you can count on. So the only thing to imagine is **how it can transform your patients' lives.**
